## Schools Guide 2021

'Our school provides a friendly yet demanding environment, based on strong academic and moral expectations,' says firm but fair Principal Frédérique Brisset. This doesn't get in the way of pupils' happiness, however, and parents praise the school for encouraging success rather than pointing out mistakes.

L'École de Battersea combines British and French educational systems, so pupils leave bilingual in a cultural as well as a linguistic sense.

Ahead of the game when it comes to air pollution, they've installed purification equipment throughout. A more structured pastoral care system is another breath of fresh air, allowing pupils to access support more easily.

**Tel** 0207 924 3186
